

# MAGNETOM Free.Star

## Key Highlights

Transforming  
Care Delivery

### High-V MRI

Power of digitalization  
50 x 50 x 45 cm<sup>3</sup> FoV  
165cm magnet- Shortest  
magnet

### Contour Coils

Small | Medium Contour  
coil 700gms | 350gms  
Utmost Patient comfort

### DryCool technology

0.7 l liquid helium  
<30 minutes ramp down  
< 24 h ramp up after quench

### Image processing innovations

Deep Resolve Gain & Sharp  
SMS | Compressed Sensing |  
CAIPIRINHA

**Paradigm Shift Clinical Imaging**  
Pulmonary Imaging  
Metal Implant Imaging  
Diffusion with no susceptibility artifacts

BioMatrix

### Biomatrix Technology

Biomatrix Select & GO Display  
Biomatrix Interface

### Advanced software platform

MR XA 50  
Platform – RSNA 202

### 8 unique myExam Companion

enable highly reproducible  
scan procedures  
Neuro | MSK | Spine

### Our most compact MRI

24 m<sup>2</sup> | < 3.1 t | < 2m  
Install it anywhere in  
the site
